

Please join us for our 2019 Winter Outing
January 25-27

We are happy to announce this year's fabulous guest speakers:

Chris Koch, motivational speaker (www.IfICan.ca)

Chris was born without arms and legs and grew up in a small farming community in Alberta surrounded by loving family and friends. His parents insisted on treating him like any 'normal' kid, encouraging him to play sports and help out on his grandpa's farm operating equipment. He might have had to do things a little differently, but his determination and desire to be like everyone else catapulted him to find a way and never give up!

Chris travels extensively throughout the world encouraging others to live their lives to its greatest potential by sharing his incredible story and always reminding them - "If I Can..." He also works with the War AMPS children's program (CHAMP) and is a role model for thousands of kids with limb differences. We are honored he will be with us throughout the weekend to inspire one and all ☺

Ryan Haack, Author/Speaker/Blogger and much more! (www.LivingOneHanded.com)

Ryan has been coming to our Winter Outings for many years - as a member, role model, mentor and all-around awesome person to be around! This year, we're happy to have him join us as one of our guest speakers (and he's bringing his wife, Julie, too!). Through his public speaking engagements, Ryan shares his humor, wit, emotions and personal journey not only with the limb different community but with lots of schools across the country.

We are grateful for Ryan's long-term commitment to HHF and look forward to hearing him talk about his "Different Is Awesome" book, blog and inspirational message of love, hope and awesomeness ☺ Yup, that's Jim Abbott pictured above with Ryan (Jim pitched a no-hitter game in 1993 with the Yankees - cool stuff!)

More Guest Speakers and Mentors....

Jen & Jordan Reeves, Born Just Right (www.bornjustright.org)

Born Just Right's mission is to build creative solutions that help kids with differences live a more enjoyable life. They believe giving kids design and STEM knowledge empowers them to create their own solutions. We're excited to learn from Jordan & Jen and hear all about their eventful year sharing their enthusiasm for creativity.

Jordan is changing attitudes around physical differences. She has shown her 'sparkle shooter' on The Rachael Ray Show, MakerFaire, TEDx and many venues across the country. We are thrilled to have Jen & Jordan return to HHF as speakers and advocates for all our HHF families!
